Dr. Phil Stover has announced that Franklin County Partners in Health is the first free clinic in North Carolina to request authorization to perform free testing for uninsured patients!

Louisburg - NC, May 22, 2020

Franklin County Partners in Health will soon be in a position to offer "free" COVID-19 evaluations and testing for uninsured patients. The clinic has ordered test kits from the state lab which should arrive within days.

In addition, Dr. Stover has received approval from the Federal Government to see uninsured patients free of charge in his practice, Louisburg Family Practice and Pain Management, for Covid 19 evaluations.

The clinic and practice have procured all the needed PPE except N95 respirators which have been requested from the state and should arrive soon. Standard masks will be provided to all patients who do not bring their own. All patients in the office/clinic are required to wear a mask.

Patients who are concerned they may have been exposed to Covid 19 may schedule appointments with either the clinic or practice by calling the following numbers. For appointments Monday through Wednesday call the practice at 919-496-1247, for appointments through the clinic which meets only on Thursdays call 919-495-4441. These appointments will be on a first-come first-served basis. These appointments will be scheduled as last appointments of the day and these patients must wait outside or in their cars until they are called for their appointment to avoid exposure of other patients.

The clinic and practice both continue to offer virtual visits via telephone, Ipad/Iphone Face Time and Facebook messenger to both established and new patients.

About Franklin County Partners in Health

Franklin County Partners in Health is a charitable clinic established in 2018 in Franklin County. Clinic sees patients with chronic diseases who have no health insurance and live in Franklin County. It currently operates on Thursdays and charges \$3-\$5 for visits.

About Louisburg Family Practice and Pain Management

Louisburg Family Practice and Pain Management is a private practice that works closely with Franklin County Partners in Health. It offers comprehensive medical management for chronic pain conditions and treatment of opioid addiction with buprenorphine/naloxone (Suboxone) maintenance therapy.
